

# M/S Kamini Infrastructure and Developers

## ABOUT

M/S Kamini Infrastructure and Developers is the right choice for solar system installation for your energy needs in day to day basics. The Company is one of the leading solar providing sector in all ranges of Customer. Our innovation, Integrated Management and experienced staff and expert is our major credential in this sector. We are a well-known source in renewable energy and green energy market Cap starting from conception, feasibility, load auditing, designing and execution.

Technical knowledge, experienced staff, well expert, skill with quality products and commitments are the key factors lead us to enhance our customer database. Market knowledge, dedicated and well trained professional teams have given us the opportunity to operate as one of the best source in solar solutions for domestic, community, industrial, water pumping and street lights.

Our unique technology used for product procurement to installation based on customized. We are in this field from ROOF TOP SOLAR to Industrial project development whilst providing comprehensive support before and after sales.

## What is a solar rooftop?

Solar rooftop are solar panels placed on top of roofs of commercial, institutional or residential buildings. They capture the light energy emitted by the sun and convert it into electrical energy. This setup is also known as solar rooftop photo-voltaic system. It produces a clean, Eco friendly form of energy, meaning it is an energy source which does not produce any type of pollution or harmful gases.

## Advantages of rooftop solar system:

1. Produce large amounts of solar power during the day.
2. Helps in reducing power bills substantially.
3. Return excess solar energy produced back to the grid, for credit from your local utility company.
4. Tap into grid-based conventional energy when direct sunlight is not available (at night, or during winter, etc.), or during off-peak hours when conventional electricity rates are low.

# M/S Kamini Infrastructure and Developers

## Kamini Infrastructure and Developers Offers

1. Rooftop Solar Projects
2. Commercial Solar Projects
3. Utility Solar Projects
4. Industrial Solar Projects
5. Water Pumping Solar Projects
6. Street Lights Solar Project.
7. Agro Solar Projects
8. Waste to Energy Solar Projects.
9. Community Development through Solar Project.
10. Water Park Solar Project.

## COMPARISION SOLAR VS ELECTRICITY

- |                                  |  |
|----------------------------------|--|
| 1. Quick installation            | It will Take Time                        |
| 2. Reduction in electricity bill | Actual Electricity Bill Over Utilization |
| 3. Uninterrupted supply          | Power Cut Problem                        |
| 4. Nominal maintenance           | High Maintenance                         |
| 5. Long operative life           | Operative life after maintenance         |
| 6. Low operational cost          | High Electricity Bill                    |
| 7. Unattended operation          | Minimum Operation Cost                   |
| 8. Extendibility at any time     | Required Changes of System               |
| 9. Environmental friendly        | In addition Pollution                    |

## WHY KAMINI INFRASTRUCTURE AND DEVELOPERS

1. 05 Years of Solar Experience.
2. 50 Nos of Experienced Employee.
3. 03 Nos Solar Expert
4. 1.095 MW per year Installation capacity.

# M/S Kamini Infrastructure and Developers

5. 100% Automated Installation Process
6. 1.095 MW per year Solar Panels Shipment
7. 1 Warehouse Capacity of 1.095 MW
8. More than 10 partners in Pan India

## 5 'A' VALUES WE FOLLOW

1. Awake
2. Adopt
3. Anger-free
4. Amuse
5. Alive

## CEO SPEAKS

I expect all of our employees to remain focused & continue striving towards our goal and a developing society. Our executive team is ever-ready to provide moral & financial support and guidance. As I look ahead it's prior to stay diligent and committed to our objectives. Let's keep working together towards a better world.

## VISION

To be recognized as India's premium fast track project execution EPC company in Solar, construction, power & smart infra project.

## MISSION

Our Vision is to partner to innovate with excellence in building modern infrastructure

# M/S Kamini Infrastructure and Developers

for our customers and societies. Our Aim result oriented efforts give long standing benefits to our clients/costumers/Society.

## CAREER

### LIFE @ KID

We are a young, dynamic & talented team with a legacy of over 05 years of spreading happiness through our services. A strong sustainable culture of mutual trust & respect is what makes us an ever-flourishing business. We promote fun at work & anger-free environment with an open culture.

### HR POLICY @ KID

KID HR policies & practises are focused on employee well-being & endeavour in creating a congenial work environment. We promote assortment & equality at work place & believe in providing an equal work environment to every employee irrespective of race, religion & gender etc.

### OPEN DOOR POLICY

One of our best practise is open door policy. Our open door policy in business reflects our commitment to transparent & flexible communications between managers & team members, Director & CMD. We ask our employees as the heart of our business to be ready to provide positive or negative feedback or share ideas that can help us thrive. So there is no room for confusion when there is direct interaction.

### JOB @ KID

@ KID we strive to put people first & create a culture that's focused on doing the right thing. We believe in working together & we face challenges head-on. We are one team aiming to make people's lives better while creating value, delivering excellence & ultimately going for the win.
